

KSHITIJ RAJ

BCA Student | Esports Operations, Gameplay QA & Event Tech Delivery

Kolkata, India | Email: kshitij.raj.96@gmail.com | LinkedIn: linkedin.com/in/imkshitijraj

SUMMARY

BCA undergraduate at Techno International New Town with hands-on experience in tournament operations, brand activations, independent gameplay QA, and live event technology delivery.

WORK EXPERIENCE

The Esports Club - Student Brand Ambassador (TEC Spartans)

2026 - Present | Kolkata / Hybrid

- Coordinate tournament activations and campus gaming community outreach.
- Handle on-ground logistics, player communications, and match-day operations.
- Document regional participation metrics, match outcomes, and player feedback.

Free Fire MAX India - Independent Gameplay QA & Feedback Contributor

2025 - Present | Remote / Independent

- Executed self-directed playtesting cycles across 15+ months of live updates.
- Documented reproducible defect reports with clear variable isolation and step-by-step reproduction.
- Categorized bugs by player severity and impact; monitored regressions across patch releases.

Euphoria GenX - Machine Learning Intern

Jul 2025 - Sep 2025 | Remote

- Worked with financial market datasets using Python, Pandas, and NumPy.
- Supported data preprocessing, feature engineering pipelines, and supervised model evaluation.

SELECTED PROJECTS

INCUBES - Inter-College Event Platform (tint.edu.in/incubes)

- Technical Project Lead: built responsive web portal using semantic HTML5, CSS3, and JavaScript.
- Coordinated multi-contributor workflow under strict immovable launch deadline for campus fest.

NEXUS - Distributed Workflow Platform Architecture (Conceptual Mockup)

- Authored PRD, workflow escalation specifications, and webhook integration architecture.

EDUCATION

Bachelor of Computer Applications (BCA)

Techno International New Town, Kolkata | 2023 - 2027

CORE SKILLS

Operations: Tournament Ops, Community Coordination, Live Event Delivery, Schedule Management

Quality Assurance: Defect Triage, Bug Reporting, Regression Testing, Variable Isolation

Technical: HTML5, CSS3, JavaScript, Python basics, Git, GitHub
